Toshiba recommends Windows Vista® Business

Satellite Pro U300

The fashionable ultra-portable

Windows Vista™

Toshiba notebooks combined with Windows Vista, the next-generation operating, gives you the best in innovative mobile computing.

The Satellite Pro U300 is a peerless ultra-portable brimming with extraordinary features for its category. Weighing just 1.99 kg, it comes equipped with Intel® Centrino® Duo processor technology, a brilliant 13.3" WXGA Toshiba TruBrite™ widescreen display, a built-in webcam for mobile video conferencing and a DVD Super Multi drive for extra data storage and exciting multimedia on the go. Selected Toshiba EasyGuard features round off the package and provide a more reliable and secure mobile computing experience.

Your data is safe

- HDD Protection features shock absorption and full 3-axis motion monitoring to dynamically protect your valuable data.

Make yourself heard with Video/Voice over IP

- The integrated webcam and microphone with echo/noise cancellation enable high-quality, real-time voice and video calling over IP-based networks.

Boost efficiency

- Intel® Turbo Memory (selected models) uses flash memory to increase system and application responsiveness and improve multi-tasking performance.

Simply connect

- Toshiba ConfigFree™ enables you to connect easily anywhere and capture location-based profiles for greater convenience.

Integrated webcam: get video conferencing on the go

DVD Super Multi drive: store data and enjoy multimedia recording/playback of CDs and DVDs

Toshiba Assist and Presentation Button: instantly launch tools and presentations

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. For PC's configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. One GB means one billion bytes. Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba websites at computers.toshiba.nl or computers.toshiba.be. Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. Intel, Intel logo, Intel Inside, Intel Inside logo, Intel Centrino, Intel Centrino logo, Celeron, and Pentium are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries. Windows, Windows Vista and the Windows logo are trademarks or registered trademarks of Microsoft Corporation in the United States and/or other countries.
